

CHANNELIZER Drums

Help drivers and pedestrians safely navigate roadwork, other construction and ground hazards with channelizer drums.

Specifications

WEIGHT	10.0 LBS
SIZE	39.7" TALL
COLORS	FLORESCENT ORANGE WITH WHITE REFLECTIVE BANDS
MATERIAL	LOW-DENSITY POLYETHYLENE (LDPE)

Channelizer Drum Lights

Enhance visibility and draw attention to construction to protect workers, drivers and pedestrians by adding flashing lights to channelizer drums. These 12-volt, UV-stabilized, polycarbonate lights have state-of-the-art optics and meet all MUTCD and ITE specifications. They come with weather-resistant, reliable chip circuits and 7" polycarbonate lenses that are extremely durable.

Channelizer Drum Bases

Add black, 44" weighted bases and rubber stabilizer rings to channelizer drums so they stay upright even in inclement weather.
